> Dear Councilor Cohen,

>

> I have been a member of the Conservation Commission since November, 2015, and my term is up this November. I have decided to leave the Commission which means a new member from our district will need to be found. The Commission has taken bold action, particularly recently, by spearheading the Open Space Planning Project, awarding grants for conservation projects by the high school and middle school, restoring the Mildred Street Gully, and planning for the redevelopment of O'Neil Street. Hopefully a new, engaged citizen can be found as soon as possible. I would be happy to help find someone, but perhaps you know of someone at this time.

>

> Thank you for appointing me. I hope to join another committee after taking a break.

>

> Sincerely,

>
